Frontend Engineer

## PROFESSIONAL SUMMARY

---

A Frontend Engineer with over 4 years with designing and implementing user interfaces using HTML, CSS, TypeScript and JavaScript. Utilizes modern frameworks like ReactJs and NextJs to build scalable web applications. Strong understanding of responsive design principles, state management and cross-browser compatibility.

## WORK EXPERIENCE

---

SDS Techhive, Nigeria, Frontend Engineer | Contract April 2025 - Present

- Translated complex UI/UX designs into pixel-perfect, responsive, and accessible frontend interfaces, ensuring brand consistency and optimal user experience across devices.
- Developed reusable components and maintained a scalable codebase using modern frontend frameworks (e.g., React, Next.js), adhering to best practices.
- Continuously enhanced user experience (UX) by identifying usability issues, implementing smooth interactions, and optimizing page performance.
- Integrated dynamic metadata, Open Graph tags, and structured data to improve SEO rankings and social media visibility across all pages.
- Conducted rigorous cross-browser and cross-device testing to guarantee consistent functionality and layout across platforms.

Peerwallet, Nigeria, Frontend Engineer Nov. 2022 - Present

- Built and maintained fully responsive interfaces ensuring seamless performance across breakpoints without sacrificing design precision.
- Implemented reliable state management using Redux Toolkit, Context APIs and local storage to persist user interactions and minimize redundancy.
- Worked closely with backend engineers to integrate securely with third-party and internal APIs, handling auth tokens, edge cases, and error states to maintain smooth user flows and data consistency.
- Configured dynamic metadata and schema markup (JSON-LD) to improve page indexing and visibility, directly contributing to measurable SEO gains.

FHBRs, Nigeria, Frontend Developer

Nov. 2021– May. 2022

- Designed and develop responsive, mobile-friendly web interfaces.
- Developed responsive Front-End designs.
- Created Resellers' Websites.

Fatech Academy, Nigeria Frontend Developer/Web Designer Instructor Dec. 2021 – May 2024

- Designing and developing responsive, user-friendly websites.
- Teaching students basic web design technology such as.
- Delivering web designing services to clients.

## PROJECTS

---

### **SDS Techhive:**

Industry: Information Technology

Technologies: ReactJs, NextJs, Typescript, Context API, MUI
